

GSCBC ~Summer Computers 2007

Are you a PIONEER??

Join us this summer at the Girl Scout Council of Bergen County for a summer of "pioneering" fun! Students use a variety of computer applications in a week of exciting computer learning.

Explore the Internet, have fun with photos, learn about pioneers from the frontier days through today's space, underwater and energy pioneers. Included in the week is a "Wacky Wednesday" filled with problem solving, teamwork, widgets and bots!! Students will contribute to our website and bulletin board and at the end of the week exhibit their multimedia presentations to family and friends!!
